

Join the **PARTNER PROGRAM**

SyracuseCoE is New York State's Center of Excellence for Environmental and Energy Systems.

The SyracuseCoE Partner Program engages collaborating firms and institutions to address global challenges in clean energy, healthy buildings, and water resources. Members work together to develop and commercialize new products and technologies.

Led by Syracuse University, SyracuseCoE capitalizes on Central New York's long-standing industry clusters and researchers at area academic institutions to provide experiential learning opportunities for both students and the workforce. By doing so, SyracuseCoE promotes jobs and wealth for CNY and New York State.

SyracuseCoE's state-of-the-art LEED Platinum headquarters facility provides not only an iconic landmark on the Syracuse landscape, but a living lab to conceive, test, and demonstrate the latest advances in energy-efficient building technologies in both real-world and simulated conditions. Since 2000, SyracuseCoE has funded more than 150 research, development, and demonstration projects, resulting in more than 1,000 jobs created and retained, 58 patents and licenses reported, and eight new start-up companies founded. And the bold ideas just keep coming—in the lab and in the marketplace.

3 PARTNER PROGRAM LEVELS

- ★ Industry Partner
- Affiliate Partner
- Start-up* Partner

*Start-up firms may receive Affiliate Partner level benefits for a special rate. "Start-up" is defined as companies with less than \$5 million in revenues, under 25 employees and less than 5 years old. This rate is available for up to 2 years.
